Phillip.

Can you provide additional information on the intended use of the garage addition on 201 Andrew's street? Are they storing a few classic cars? This person owns a tool machine shop...is the garage going to have heat? Are they building a 'shop'? Are we going to have additional trucks and equipment on Andrew's street now? Amis there going to be machining equipment in the new garage?

All it states is a large addition to the existing garage. This r 80 zoning is residential therefore we need to be crystal clear on the intent of the garage use. It seems to be too large to store a boat and a few cars.

All of the neighbors that recieved this letter are going to expect additional documentation.

Thanks

Chris
