RE: Proposed 8" water main extension 181 West Queen Street (9 lot industrial subdivision) in Southington, CT,  
a.k.a. S#1328

To Whom It May Concern:

The August 8, 2021 information received for your project referenced above has been reviewed by our staff. We would like to see the information revised to provide the following:

1. A site plan indicating the size and material type of the existing water main (12" DICL) on West Queen Street.
2. A site and profile plan indicating a proposed 12x12 tapping sleeve and gate valve at the connection on West Queen Street.
3. A site and profile plan indicating the proposed water main on Hightech Drive as 12" DICL.
4. A site and profile plan indicating 12x6 hydrant tees.
5. A site plan indicating the proposed blow-off in the cul-de-sac located in the pavement before the drainage crossing, not in the driveway apron.
6. A site plan indicating that the size and location of each water service lateral for the lots will be determined as the site plan for each individual lot is sold for development.
7. A site and profile plan indicating a "Proposed Water Service Tap (TYP.)".
8. A site plan indicating "Proposed Fire Hydrant (TYP.)".
9. A site and profile plan indicating the proposed water main extension down the private driveway for Lots 5, 6, 7 and 8.

After your information is revised to reflect our requirements, please submit the revisions to our department for a further review by our staff.

If you have any questions or problems, don't hesitate to call me at the Southington Water Department. My office phone number is (860) 628-5593.

Sincerely,

Albert T. Fiorillo  
Assistant Superintendent
