Subject: 136 Curtiss Street Site Plan Review

EXTERNAL EMAIL: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Robert,
Spoke with you briefly at a recent PZC meeting regarding the truck traffic issues that our neighborhood is experiencing with trucks entering and exiting this location and are traveling through Curtiss Street to get to and from West Street.
Curtiss Street is narrow with no sidewalks and it's unsafe for these very large trucks to go through our neighborhood.
I know Victoria Triano has discussed our current neighborhood petition with you regarding these truck traffic issues that is impacting not only Curtiss Street, but Lazy Lane and Melcon Drive.

I noticed there is an agenda item for the site plan for this location at your next meeting. After reviewing all the linked documentation, I don't see that truck traffic is being addressed, hopefully it will be?

As part of this application approval, can you pursue restricting truck traffic from this location to enter and exit to North Main Street and if the new road exits to Lazy Lane, restrict truck traffic to enter and exit to Queen Street and include appropriate signage.

I know the town wants to develop more industrial businesses in surrounding residential areas, but it shouldn't impact our safety and quality of life.

Thanks
Ellen Slipski

If you want to discuss this issue with me I can be contacted at 860-378-5266 (C). I plan on attending this meeting.
