RE: Proposed 8" water main extension 136 Curtiss Street (10 lot industrial subdivision) in Southington, CT, a.k.a. S#1330

To Whom It May Concern:

The October 1, 2021 information received for your project referenced above has been reviewed by our staff. We would like to see the information revised to provide the following:

1. A site and profile plan indicating a proposed 12" Ductile Iron water main.
2. A site and profile plan indicating a 8"x12" increaser after tapping sleeve.
3. A site plan indicating a fire hydrant at stations 3+00, 6+00, 9+00, 12+00.
4. A site plan indicating a 12x6 hydrant tee and 6" hydrant valve at stations 3+00, 6+00, 9+00, 12+00.
5. A site plan indicating an inline 12" gate valve at station 7+00.
6. A site and profile plan indicating a manual air release valve at the highest point along proposed water main.
7. Water service notes #1-5 on P-1 do not apply and therefore should be removed.

After your information is revised to reflect our requirements, please submit the revisions to our department for a further review by our staff.

If you have any questions or problems, don't hesitate to call me at the Southington Water Department. My office phone number is (860) 628-5593.

Sincerely,

Albert T. Fiorillo
Assistant Superintendent
