

To Whom it May Concern,

We are writing in regards to the proposal by Mark Lovley to put a 55 and over community within our family neighborhood. Mr. Lovley has the ability to build his community, along with the “affordable housing” he is using as an excuse on the former Briarwood property in Southington where it will be adjacent to an existing 55 and over community. This makes sense. Putting it in our neighborhood filled with children riding bikes and scooters does not. Additionally, the aesthetic of these ranch homes does not fit with our colonial style neighborhood at all whatsoever. Attached are pictures of a few homes on our cul-de-sac and also of the bungalow style houses he is planning. This does not fit in our neighborhood any more than a 55 and over community does. This will also affect the value of our homes which is unfair.

My neighbors told me not to bother opposing this because Mark always gets what he wants from P & Z. You may have already made up your mind in his favor but we feel you need to know that this is just not right. Please reconsider.
