I am writing to voice my concern about the possibility of a car wash at what I consider one of the worst intersections in Southington. Cars are coming off the highway, often at high speed; there is an intersection which is extremely awkward if you are trying to make a left-hand turn onto Pratt Street; a Dunkin Donuts on one corner; a gas station on another corner. I cannot fathom what could be worse than putting a car wash into that mix.

Having lived across the street from this vacant lot for almost 6 years, I am not sure what would be the best use of this property, but I can only imagine that a car wash would not be a great choice, not only because of the traffic situation, but also for the homeowners who are unfortunate enough to be right next to it.

Thank you.
